Opal Design II/LED

Live it up on your patio

High-performance technology meets high-calibre design – the weinor Opal Design II meets all the demands of a premium cassette-awning. Built to shade large areas, its timelessly classic shape blends in perfectly with any style of architecture. The beautifully-shaped cassette adds some refined sophistication to the facade. A wealth of product highlights makes the awning easy to use, outstandingly convenient in its operation and durable.

The first-class awning with great features

With Valance Plus and integrated LED lighting, the Opal Design II lives up to the highest demands. Multi-section units convert even large patios into well-shaded favourite areas.

Honoured with:

Opal Design II/LED – Highlights and features

Classic design for those who enjoy spacious patios

Large, powerful and safe – the Opal Design II has enough to convince even the most demanding patio aficionados.

- timelessly classic design
- certified up to wind force 5
- with weinor LongLife arm (10-year warranty)

End cap closure – unique and safe closing mechanism

If you can see the spring loaded clips at the end of the cassette are closed, then the awning is reliably protected against the elements and dirt.

- crescent-shaped cap closes securely
- unique, patented solution made by weinor

Integrated LED lighting for long evenings on the patio

The Opal Design II LED casts an atmospheric, warm white light for even longer hours of enjoyment on the patio.

- operating life of 30,000 hours
- highly energy-efficient
- dimmable via remote control using a hand transmitter or Smart Home via smartphone or tablet
- can be used even when awning is retracted

Valance Plus – more privacy, more glare protection

With its vertical awning, the Opal Design II Valance Plus provides the best-possible privacy, anti-glare and sun protection.

- valance height up to 210 cm
- patented weinor Opti-Flow-System® for the ideal fabric positioning
- practical control – via weinor BiConnect even with table retraction protection

Multi-section units to shade especially large areas

On combined multi-section systems, two sections of fabric are connected to one motor. This means they can both be operated at the same time (does not apply to Valance Plus option).

- for spacious patios up to 48 m²
- jockey cover as connector between the units
- LED spotlights asymmetrically distributed on coupled units

The right control unit to suit all needs

Whether hard wired, remote control or Smart Home, using a hand transmitter, smartphone or automatic weather control – control your awning and accessories really effortlessly with weinor BiConnect or Somfy control units. A gear drive is also possible. The LED lighting and heating can be dimmed fine-tuned via remote control or Smart Home. Your weinor retailer will be happy to advise you competently.

Which control unit fits your needs?

Manual ★

Manual – operation via gear handle

You'd like to operate your awning manually and under your own steam? With a gear handle, it is independent of a power source and can be attached very flexibly at almost all installation locations.

Basic ★★

Basic – operation with a hard wired switch or automatic weather system

You would like to operate your weinor awning comfortably via a hard wired wall switch? Your motorised awning can be effortlessly extended and retracted with a simple switch. Optionally, an automatically controlled unit can be used with a sun, wind and rain sensor instead of a hard wired switch.

Comfort ★★★

Comfort – operation with a remote controller plus dimming heating and lighting

You would like to control your weinor awning comfortably via remote control from the patio or the house? That's pretty easy with a remote controller. Optionally, the lighting and the radiant heater can be activated with it and even be dimmed. You can also operate vertical sun protection or further awnings on the house centrally by this means.

Smart ★★★★

Smart – operation with a smart phone, language assistant or pre-set

You would like to network your weinor awning, lighting, radiant heater and other accessories with the further technology in your home and control it from everywhere via a smartphone or tablet? That's child's play with the Smart Home Centre Somfy TaHoma Switch! Also if you would like to operate it via a language assistant or a pre-set automatic scenario.

Please note that the weinor BiConnect and Somfy systems cannot be combined.

More comfort with side awnings

Paravento – side privacy screen at a flick of the wrist

Our extendable side screen provides a further possibility to better enjoy more privacy: Paravento provides wind and

privacy protection and its fabric and colour can be matched to your awning.

47 standard RAL colours

Colour manufacturers make every effort to guarantee colour stability. Despite this, as a result of the ban on the use of heavy metals in powder coatings, it therefore cannot be excluded that colours in general, and Fire Red (RAL 3000) in particular, may fade with time.

Over 200 modern frame colours

Maximum colour safety: weinor has over 200 different frame colours for you to choose from. You can choose from diverse colours which harmonise with the architecture.

Identical colours – for a perfect match

As weinor does all the powder coating in its own workshop, you can also rest assured that different weinor products come with the same top-class colour tonality and identical gloss level.

Choose from an abundance of high-quality colours:

- 47 standard RAL rack colours, silk gloss
- 9 scratchproof, resistant trend colours with an elegant textured look (standard)
- over 150 special RAL colours
